

SFR Protective Apparel (MPW825)

SFR Protective Apparel is a lightweight, disposable overgarment designed to provide an additional layer of protection for primary flame-resistant garments. It acts as a barrier against non-hazardous particles and aerosols, while maintaining safety by preventing burn injury when exposed to flames.

- **Fabric Composition:** Flame retardant treated fabric
- **Protection Level:** Provides a secondary layer of flame protection for primary garments, ensuring workers remain safe in hazardous environments

Features

- **Lightweight & Disposable:** Provides comfortable, easy-to-use protection, designed to be worn over primary flame-resistant garments
- **Barrier Protection:** Protects against non-hazardous particles and aerosols, without contributing to burn injury
- **Flame Retardant Treated:** Treated to resist ignition when exposed to a flame source, but not inherently flame-resistant—ideal as an overgarment

COLOR : Blue Shadow (PLS1786BLSH)

SKU: MPW825

Categories: Pharma Workwear, Specialized PPE, Workwear

GUARANTEED SAFE CHECKOUT

Product Name: SFR Protective Apparel (Flame-Retardant Overgarment)

Fabric Composition: Flame retardant treated fabric

Use: Single-use (disposable)

Application: Worn over primary flame-resistant garments

Protection Type: Secondary flame protection + particle/aerosol barrier

Key Features:

- **Secondary Flame Protection:** Acts as an extra layer over primary FR garments, reducing the risk of burn injury when exposed to flames
- **Lightweight & Disposable:** Designed for comfort and ease of use in hazardous environments
- **Barrier Against Particles and Aerosols:** Helps protect against non-hazardous dry particles and light aerosols
- **Flame-Retardant Treated Fabric:** Resists ignition but is *not inherently flame-resistant* — optimized for overgarment use
- **Ideal For:** Industries where both particle control and flame exposure are concerns (e.g., utilities, maintenance, refineries)
